About Hullaards

Step back in the year 2015, when RPM CORP AIDS PVT. LTD. was established as a one-stop destination for premium air solutions. Headquartered in Delhi, India and operating worldwide, RPM CORP AIDS PVT. LTD. has become an expert in designing and manufacturing innovative, energy-efficient, and stylish ceiling fans for both residential and commercial spaces.

Our ceiling fans are crafted to deliver superior air circulation with minimal noise, ensuring comfort and elegance in every corner of your home or office. At RPM CORP AIDS PVT. LTD., we believe that everyone deserves refreshing and clean airflow, just as nature intended. That's why we engineer fans that combine high-performance technology with sleek designs.

Known for delivering the highest air delivery with the lowest energy consumption, our ceiling fans strike the perfect balance between efficiency, durability, and style. We follow an uncompromising approach to building the world's best ceiling fans by using premium components and advanced technology.

With a strong commitment to research, development, and continuous innovation, RPM CORP AIDS PVT. LTD. has developed ceiling fans that are easy to maintain, long-lasting, whisper-quiet, and capable of transforming indoor comfort dramatically. Our reputation rests on performance, quality, and the trust of our customers worldwide.

COMFORT
is in the AIR

Customer Satisfaction

Our team works relentlessly to meet the highest industry standards, creating ceiling fans that seamlessly blend design, innovation, energy efficiency, and unmatched performance in a single system. Never satisfied with the ordinary, we continuously push boundaries to fulfill the diverse requirements of our clients by inventing new & improved airflow solutions for both residential and commercial spaces—always within the promised schedule. We believe our success lies in customer satisfaction, which is why our primary focus is to craft ceiling fans that not only meet but exceed expectations—offering superior air delivery, whisper-quiet operation, and long-lasting efficiency.

Vision

Our vision is to make this world a healthier and happier place, where no one has to suffer from discomfort caused by poor airflow or hot, unhealthy indoor environments. We are dedicated to providing innovative ceiling fans that not only enhance comfort but also promote better living conditions by ensuring clean, refreshing, and energy-efficient airflow. Our mission is to create the perfect environment in every home and workspace—so that everyone can enjoy cooler, fresher, and healthier air every day.

Mission

We are committed to improving indoor comfort by building the world's best ceiling fans. Our main focus is to develop revolutionary airflow technology that not only enhances people's lives with refreshing comfort but also protects the environment through energy efficiency and sustainable innovation.
